

## Enabling Safer Vehicles and Industrial Machines

Success Story

### Business Challenge

Maintain and grow market share as a leading global retailer and distributor of automotive replacement parts and industrial parts.

### Solution

Unisys Security Solutions, including ~65,000 Stealth™ licenses, support services and professional services to deploy a single solution over disparate IT infrastructures.

### Results and Benefits

- Protected applications and workloads across the IT infrastructure and secured executive, store and supply-chain communications from malicious cybersecurity threats
- Introduced a common, holistic security policy across the entire, global non-standard infrastructure
- Reduced operational costs through a subscription-based solution without additional hardware costs
- Ensured compliance with key regulations including GDPR (General Data Protection Regulation), Payment Card Industry Data Security Standard (PCI DSS) and the California Consumer Privacy Act

*“We have a large and diverse distribution network spanning ~3,100 operations and 10,000 stores. With Unisys Stealth®, we are centrally managing our cybersecurity operations while strengthening our global security posture and securing our operational environment.”*
